CONDITIONS OF CONTRACT

Clause: 1

Security deposit:

- a) The security deposit to be taken for the due performance of the contract will be 4% of the tender amount (inclusive of Earnest Money). The successful Bidder shall pay:
 - 1) 2% of the estimated amount of work (inclusive of Earnest Money) at the time of agreement and
 - 2) 2% to 8 % as applicable as per tender Notice 1. 2% to 8% shall be recovered by deducting the amount of every running bill till the whole 2% to 8% amount is made-up as a Security Deposit. If the successful Bidder fails to pay the necessary security and fails to execute proforma agreement for contract within the time specified, in this behalf, the Earnest Money shall be forfeited and the Development Authority will get the work executed such manner as it may deem fit.
 - 3) The Development Authority shall be at liberty to invest the deposit in any form it chooses and shall not be liable for payment of any interest on this sum to the contractor in that case.

The deposit shall be available for forfeiture by the Development Authority in case of default by the contractor.

The Security Deposit shall be returned to the contractor without any interest when the contractor ceases to be under any obligations under the contract i.e. after completion of defect liability period of one year from the date of commissioning & completion and shall be returned after the Development authority is satisfied that no defect is discovered in the work, or no claim is found out against the contractor against the contractor within this period. In such cases, payment will be made after defect is removed and/or claim is satisfied.

Clause: 2

Action when the progress of any particular portion of the work is unsatisfactory:

In the progress of any particular portion of the work is unsatisfactory, the Executive Engineer shall notwithstanding that the general progress of the work is in accordance with the condition.

Clause: 3

Contractor

No. of Corrections

Executive Engineer (ELECT)

Completion Certificate:

On completion of the work, the contractor shall be furnish a certificates from the Executive Engineer of such completion but no such completion certificate shall be given until the contractor removes all appurtenance such as scaffolding shoring, temporary support etc. and cleared the site of all surplus material, rubbish etc., and shall have handed over to Engineer-in charge, the completed work neatly furnished, in clean and tiptop condition with all parts of this structures of work cleaned of all dirt stains etc. to the satisfaction of the Engineer-in-charge.

If the contractor fails to comply with requirements of this clause, such as removals of scaffolding, surplus materials and rubbing and cleaning of dirt on or before the date fixed for the completion of the work, the Engineer-in-charge at expenses of the contractor remove such scaffolding, surplus materials, and rubbish and dispose of the same as he thinks fit and clean of such dirt as aforesaid and the contractor shall forth with pay the amount of all expenses so incurred and shall have no claim in respect of any such scaffolding or surplus materials as aforesaid except for any sum actually realized from the sale thereof.

Clause: 4

Bills to be on printed forms:

The contractor shall be submit all bills on printed forms to be had on application at the office of the Executive Engineer and rates in the bill shall always be entered at the rates specified in the tender or in the case of any extra work order in presence.

Clause: 5

Contractor percentage whether applied net or gross amounts of bill:

The percentage to in the tender shall be deducted from / added to the gross amount of the bill before deducting the value of any stock issued.

Clause:6

Work to be executed in accordance with specifications, drawings, orders, etc.:

The contractor shall execute the whole and the every part of work in the most substantial and workman-like manner in respect of both materials and workmanship and strictly in accordance with the specification. The contractor shall also confirm exactly, fully and faithfully to the designs and instructions in writing relating to the work singed by Executive Engineer and lodged in his office. The contractor shall be entitled to have access to such design and drawing in the office of Executive Engineer during office hours on the site of work for the purpose of inspections and the contractor shall if he so requires be entitled at his own expenses to make or cause to be made copies of the inspections and of all such designs and instructions as aforesaid.

Clause: 7

Alteration in specifications and designs not to invalidated contracts:

The Engineer-in-charge shall have power within the tender amount to make any alterations in or additions to the original specification, drawings and instructions that may appear to him to necessary or advisable during the progress of work and the contractor shall be bound to carry out the work in accordance with any instructions in this connection which may be given to him in writing signed by the Engineer-in-charge and such alteration shall not invalidate the contract, and any additional work which the contractor may carry out on same condition in all respects on which he agreed to do the main work and at the same rates as are specified in the tender for the main work. And if the additional and alter work includes any class of/work for which no rates specified in this contract, then such class of work shall be carried out at the rates entered in the scheduled of rates of Division or at the mutually agreed upon between Engineer-in-charge and the contractor whichever are lower. If the additional or alter work for which no rate is entered in the schedule of the rates of the Divisions, is ordered to be carried out before the rates are agreed upon the contractor shall within seven days of the date of receipt by him of the order to carry out the work inform the Engineer-in-charge of the rate which it is his intention to change for such class of work and if the Engineer-in-charge does not agree to this rate he shall by notice in writing to Engineer-in-charge be at liberty to cancel his order to carry out such class of work and arrange to carry out in such manner as he may consider advisable provided always that if the contractor shall commence work or incur any expenditure in regard thereto before the rate shall have been determined as lastly here-in-before mentioned, then in such case he shall only be entitled to be paid in respect of the work carried out of expenditure incurred by him prior to the date of the determination at the rate as aforesaid according to such rate or rates as shall be fixed by Engineer-in-charge, in the event of the dispute the decision of Development Authority will be final.

Where, however, the work is to be executed accordingly to the designs, drawings and specifications recommended by the contractor and accepted by the competent authority alteration as referred above shall be within the scope of such designs drawings and specifications appended to the tender.

Rate for work in estimate or schedule:

If the additional work includes any class of the work for which no rate is specified in the contract, then class of work shall be carried out at the rate derived prorata from indicative rates from analogous item in the tender where it is so possible, otherwise such work shall be carried out at the Public work & Housing Department scheduled of rates in force on the date of the tender, or at the rates agreed to by the contractor whichever is less.

Clause: 8

No claim to any payment or compensation for alteration in or restriction of work:

1. If at any time after the execution of the contract documents the Engineer-in-charge shall for any reason what-so-ever (other than default of the part of the contractor for which the Development Authority is entitled to rescind the contract) desires that the whole or any part of the work specified in the tender should not be carried out at all he shall give the contractor a notice in writing of such desire and upon the receipt of such notice the contractor shall forthwith suspend or stop the work wholly or in part as required, after having due regard to the appropriate stage at which work should be stopped or suspended so as not to cause any damage or injury to the work already done

or endanger the safety thereof provided that the decision of the Executive Engineer as to the stage at which the work or any part of it could or could have been safely stopped or suspended shall be final and conclusive against the contractor. The contractor shall have no claim to any payment or in presence of any notice as aforesaid on account of any suspension, stoppages or curtailment expect to the extent specified herein after.

Clause: 9

Action and compensation payable in case of bad work:

If at the time before the security deposit or any part thereof is refunded to the contractor it shall appear to the Engineer-in-charge or his subordinate-in-charge of the work, that any work has been executed with unsound ,imperfect or unskillful workmanship or with material of execution of the work are unsound or of quality inferior to that contracted for or otherwise ,not in accordance with the contract it shall be lawful for Engineer-in-charge to intimate this fact in writing to the contractor, who shall be bound forthwith to rectify or remove and reconstruct the work so specified and provide by other proper and suitable materials or articles at his own charges and cost and in written intimation aforesaid ,the contractor shall be liable to pay compensation at the rate of one percent the amount of the estimate for every day not exceeding 10 days during which the failure so continues and in case of any such failure the Engineer-in-charge may rectify or remove and re-execute the work or remove and replace the materials or articles complained of as the case may be at his risk and expenses in all respects of the contractor. If the engineer in charge considers that any such inferior work or materials as described above may be accepted or made use of it ,shall be within his discretion to accept the same at such reduced rates as he may fix thereof.

Clause: 10

Work to be open for inspection Contractor or responsible agent to be present:

All work under construction or in case of the execution of contract ,shall at all times be open for the inspection and supervision of the Development authority officers (Executive Engineer, Deputy Engineer, the Engineer-in-charge) and such of their subordinates and agencies who may have been entrusted with the supervision of the work in question and the contractor shall be at all times remain present and receive instruction or shall have at site a responsible agent duly accorded in writing, to be present for that purpose Orders given to the Contractor's agent shall be considered to have the same force as they have been given to the contractor himself

Clause: 11

Notice to be given before the work is covered up:

The contractor shall give not less than five days notice in writing to Engineer-in-charge of the work, before covering up the work. Any work placing beyond the reach of measurement cover in order ,the same may be measured and correct dimensions thereof be taken before the same is so covered up or placed the measurement and shall not cover up or place any work without the consent in writing from the Engineer-in-charge and then the work shall be covered up.

Clause: 12

Contractor to supply plant, ladders scaffolding etc:

The contractor shall supply at his own cost the materials(except such special material if any as may in accordance with contract be supplied by the Development Authority) stores, plants, tools, appliances, implements, ladders, cordage ankle, scaffolding and temporary work require for proper execution of the work, whether original, altered or substituted and whether included in the specification or other documents forming part of contract or referred to in these conditions or not, or which may be necessary to satisfy the requirement of Engineer-in-charge which he has right to enforce under the condition of contract together with the carriage thereof to and from the work. The contractor shall also supply without charge the requisite number of workmen with the means and materials necessary for the purpose of setting out work and counting, weighing and assisting in the measurement or examination as and when required. In the case contractor fails to do the same it may be arranged by the Engineer-in-charge at the expenses of the contractor, and the expenses may be deducted from any money, due to the contractor, under the contract or from his security deposit.

Clause: 13

Labour:

No labour below the age of 12 years/ as per latest labour law shall be employed in work. If found it will sole responsibility of the contractor.

Clause: 14

As per minimum wages act 1948 and as amended time to time:

- i) The contractor shall be pay fair and reasonable wage to the workmen employed by him in the contract undertaken by him. In the event of any dispute arising between the contractor and his workmen on the grounds that the payments are not fair and reasonable the dispute shall not in any way affect the conditions in the contract regarding the payment to be made by Development Authority at the sanction tenders, as mentioned in the tender.
- ii) The contractor shall provide drinking water facilities to the workers and similar amenities shall be providing to the worker angled on large work under areas.

Clause: 15

The contractor shall be responsible for and shall pay the expenses of providing medical aid to any workman who may suffer a bodily injury as a result of an accident, if such expenses are incurred by Development Authority the same shall be recoverable from the contractor forthwith and the deducted with the prejudice to any other remedy to Development Authority from any amount due or that may become due to the contractor.

Clause: 16

The contractor shall provide all necessary personal safety equipment and first aid apparatus available for use of the persons employed on the site shall maintain it in the same condition suitable for immediate use at time and shall comply with the following regulations in connection therewith.

- (a) The worker shall be required to use the equipment to provide by the contractor and the contractor shall take adequate steps to ensure proper use of the equipment by those concerned.
- (b) When the work is carried out in proximity to any place where there is a risk of drawing all necessary steps shall be taken for the prompt rescue of any person in danger.
- (c) Adequate provisions shall be made for prompt first-aid treatment of all injuries like to be sustained during the course of the work.

Clause: 17

Reasonable compensation by contractor for any default:

All sums payable by way of compensation under any of these conditions shall be considered as reasonable compensation payable to the Development Authority by the contractor for any default, without reference to the actual loss or damage sustained and whether or not any damages shall have been actually sustained.

Clause: 18

In case of tender being executed by the partners any change in the constitution of the firm shall be forthwith notified by the contractor to the Executive Engineer for his information.

Clause: 19

Work to be under direction of Engineer-in-charge:

All work to be executed under the contract shall be executed under the direction and subject to the approval in all respects, of the engineer-in-charge who shall be entitled to direct at what points and in what manner they are to be commenced and from what time carried out.

Clause: 20

ADDITIONAL GENERAL CONDITIONS AND SPECIFICATION

(Note: These are to apply as additional specifications and conditions unless otherwise already provided for contradictorily else –where in this contract)

1. General:

1.1 Contractor to inform himself fully:

The contractor shall be deemed to have carefully examined the work and site conditions including labour ,the general and special condition, the specifications,schedules and drawings and shall be deemed to have visited the site of work and to have fully informed himself regarding the local conditions and carried out his own investigations to arrive at rates quoted in the tender .In this regard he will be given necessary information to the best of knowledge of department but without any guarantee about it .

If he shall have any doubt as to the meaning of any portion of these general conditions or these special conditions ,or the scope of work or the specifications and drawings ,or any other matter concerning the contract, he shall in good time before submitting his tender set forth the particular thereof and submit them to the Executive Engineer in order that such doubts may be clarified and authoritatively before tendering .Once a tender is submitted the matter will be decided according to tender conditions in the absence of such authentic pre clarification.

1.2 Errors Omissions and discrepancies:

(a) In case of difference between the rates written in figures and words the rate adopted by contractor for working out the total amount of the item will be taken as correct ,in other case the correct rate would be that which is lower

(b) In all cases of omissions and /or doubts or discrepancies in the dimensions or descriptions of any item or specification a reference shall be made to the Executive Engineer who's elucidation, elaboration or decision shall be considered as authentic .The

contractor shall be held responsible for any errors that may occur in work through lack of such reference and preparation.

- (c) The several documents forming the contract are to be taken as mutually explanatory to one another, detailed drawings being followed in preference to small scale drawing and figured dimensions in preference to small scaled dimensions and special conditions in preference to general conditions. Any error in description quantity or rate in bills of quantities or any omissions there of shall not violate the contract or release the contractor from execution of the whole or any part of the work comprised there in according to drawings and specifications or from any of this obligation under contract.

Working methods and progress schedules:

- (a) Contractor shall submit within the time stipulated by the Engineer, in writing the details of actual methods that would be adopted by the contractor for execution of any item as required by Engineer at each of locations supported by necessary detailed drawings and sketches including those of the plants and machinery that, would be used their locations arrangement for conveying and handling materials etc. and obtain prior approval of the Executive Engineer well in advance of starting of such item of work. The Executive Engineer reserves the right or suggest modification or make complete changes in the method proposed by the contractor, whether accepted previously or not at any stage of work, to obtain the desired accuracy, quality and progress of work which shall be binding on the contractor and no claim on the account of such change in method of execution will be entertained by Development Authority so long as specification of the item remains unaltered.

Progress schedule:

- (b) Further the contractor shall submit the progress of work in prescribed form and charts etc. at periodical intervals as may be specified by Executive Engineer Schedule shall be in the form of progress charts, forms progress statements and / or reports as may be approved by the Engineer.
- (c) The contractor shall maintain proforma charts, details regarding machinery equipments labour, material, and personnel etc. as may be specified by the Executive Engineer.

1.3 Agent and work-order book:

The contractor shall himself manage the work or engage an all time agent on the work capable of managing and guiding the work and understanding the specifications and contract conditions. A qualified and experienced Engineer/Supervisor shall be provided by the contractor as his agent for technical matters. He will take orders as will be given by Executive Engineer or his representatives and shall be responsible for carrying them out. This agent shall not be changed without prior intimation to the Executive Engineer and his

representative work on site. The contractor shall supply to the Engineer the details of supervisory and other staff employed by the contractor and notify changes when and satisfy the Engineer regarding the quantity and sufficiency of the staff thus employed. The Engineer will have the unquestionable right to ask for change in the quality in the numbers of contractor's supervisory staff and to order removal from work of any such staff. The contractor shall comply with such orders and effect replacement to the satisfaction of the Engineer.

A work order book shall be maintained on site and it shall be the property of the Development Authority and the contractor shall promptly sign orders given therein by the Executive Engineer or his representatives and his superior officers, and comply with them. The compliance shall be reported by the contractor to the engineer in good time so that it can be checked. The blank work-order book with machine number pages will be provided by the Development Authority free of charge for this purpose. The contractor will be allowed to copy out instructions therein from time to time.

1.4 Initial measurements for record:

Where, for proper measurement of work it is necessary to have an initial set of levels or work other measurements taken, the same as recorded in the authorized field book or measurement book of Development Authority by the Engineer or his authorized representative will be signed by the contractor who will be entitled to have true copy of the same made at his cost. Any failure on the part of the contractor to get such levels etc. recorded before starting the work will render him liable to accept the decision of the Engineer as to the basis of taking measurements. Likewise the contractor will not cover any work which will render it's subsequent measurements difficult or impossible without first getting the same jointly measured by himself and the authorized representative of the Executive Engineer .The record of such measurements of the Development Authority side will be signed by the contractor and he will be entitled to have a true copy of the same made at his cost.

1.5 Co- Ordination:

When several agencies for different sub-works of the projects are to work simultaneously on the project site there must be full co-ordination between different contractors to ensure timely completion of whole project smoothly .The schedule dates for completion specified in each contract shall therefore, be strictly adhered to. Each contractor may make this independent arrangement for water, power, housing, etc. if they desire. On the other hands the contractors are at liberty to come to mutual agreements in this behalf and make joint arrangements with the approval of Engineer .No single contractor shall take or cause to be taken any steps or actions that may cause, disruption ,discontent or disturbance of work, labour unrest etc. of other contractors in the project. Any action by any contractor which the Engineer in his unquestioned distraction may consider as infringement of the above would be considered as a breach of the contract conditions and shall be dealt as such.

In case of any dispute disagreement between the contractors, the Executive Engineers decision regarding the co- ordination, co-operation and facilities to be provided by any of the

contractor shall be final and binding on the contractor s concerned and such decision or decisions shall not violate any contract nor absolve the contractor of his / there obligations under the contract nor from the grounds for any claims or compensations.

1.6 Temporary Quarters:

1. The contractor shall at his own expenses maintain sufficient supervisory staff etc. required for the work and provide housing for them with all necessary arrangements as directed by Executive Engineer.

2. Indemnity:

The contractor shall give indemnity to the Development Authority against all actions, Suits claims and demands brought or made against him in respective of anything done or omitted to be done by contractor in execution of or in connection with the work of this contract and against any loss or damage to the Development Authority in consequence of any action or suit being brought against the contractor for anything done or omitted to be done in the execution of work of this contract.

2. Miscellaneous:

2.1 Rates shall be exclusive of sales tax, General tax and other taxes etc.

2.2 It is presumed that the contractor has gone carefully through, 'specification' and studied site conditions before arriving Rates quoted by him. Decision of Executive Engineer shall be final as regards interpretation of specifications.

2.3 The contractor shall be responsible for making the goods damages done to the existing properties during construction by his men.

2.4 In the schedule "B" every item shall be deemed supplementary to and complimentary of every other item.

2.5 All measurements will be made in accordance with the methods indicated in the specifications and read in conjunction with the General Conditions of Contract.

2.6 The recoveries if any due from contractor will effected by process of law.

2.7 Sales tax and works contract tax or any other taxes, levies etc. are to be borne by the contractor. The claims for the same will not be entertained for any reasons during the execution of work.

2.8 Technical person who is appointed by the contractor should come on two days in week

(Monday & Thursday) at 10:00am to 6:00pm for checking and maintaining for Baggage

scanner on the site. Also he should attend the call as per requirement of department as and when required.
